RE: Paving Repairs on Newport Drive

Respectfully,

This letter is being provided to your school in order that communication can be made with parents of the students attending Partin Elementary School.

There is a significant paving failure near 316 Newport Drive. The City of Van Alstyne has employed a contractor to make repairs to the damaged area. The damage is across the full width of the street. Repair will necessitate total closure of the street to through traffic for approximately 1 week.

We realize there is significant traffic on Newport Drive while school is in session. We have requested the contractor to schedule the project to be completed during the week of March 11, 2024 to coincide with the upcoming spring break schedule.

The contractor is currently scheduled to begin work on Saturday, March 9. Newport Drive will be closed to through traffic from Southridge Drive to Caruth Drive once the work begins until it is completed. It is anticipated work will be complete and the street reopened prior to March 16, 2024.

PLEASE NOTE that this work relies on good weather. Inclement weather including rain can delay the ability to complete the new paving. If so, there may be additional days of closure.

If you have any questions, please contact Bob Johnson as shown below.

A handwritten signature in blue ink that reads 'Robert M. Johnson'.
